

Good Friday at the Foot of the Cross

*To Mourn the 2,500+ Babies Killed at this Location
in Four Years by Leroy Carhart*

This is the fifteenth anniversary of the death of Monsignor Thomas Wells— on Good Friday, the Monsignor prayed outside this abortion mill to end this atrocity forevermore.

This Good Friday, his nephew, Father David Wells joins us in continuing that prayer. This is a collective prayer for life to bring an end to the scourge of rampant late-term abortions brought to our community by Carhart's malevolent business enterprise.

"This generation is the first that could ever have been aborted. I know there have always been abortions; but, until 1973, the vast number of civilized people saw abortion as the gross obscenity that it is. Children today have an intuitive understanding that they are only conditionally wanted and accepted; that, if conditions were different, they would never have been here at all."
